Communications Processes

Listening Online

These training materials have been prepared by Aspiration.

Who is Aspiration?

- Aspiration helps nonprofits and foundations use software tools more effectively and sustainably.
- We serve as ally, coach, strategist, mentor and facilitator to those trying to make more impactful use of information technology in their social change efforts.
- www.aspirationtech.org/services

Agenda

- What is a listening online?
- What tools can help?
- How can it be useful for your organization?
- How can it inform your messaging?

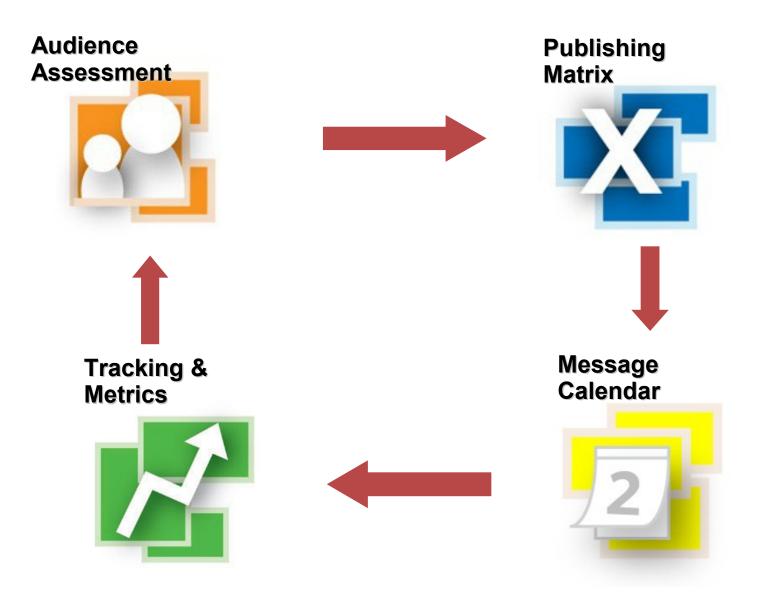

First Things

- This training is envisioned as a dialog
- Please ask questions early and often
- It will only be as valuable for you as you make it!

Four Processes

info@aspirationtech.org

What is Social Media Today?

- Conversations with people online
 - Social media
- Made for people, not organizations
 - It's not going to work perfectly
- Not your virtual megaphone

info@aspirationtech.org

Basics

- Why do I need tools to listen online?
 - To be notified when keywords of interest are mentioned on the internet
 - To better understand:
 - who are your online influencers
 - if your messages are reaching your intended audiences
 - data informed decisions to improve messaging

Basics

You need to know:

- Who? & What?
 - Who do you want to listen?
 - What do you want to listen about?
- Where?
 - What tools to use to listen?

What to look for:

Names of:

- organization(s) involved
- key leader(s) of the campaign
- an Executive Director or CEO
- any spokespeople for or against the issue
- campaigns, propositions, or programs that you support

- Any events or protests that you've been a part of
- Any #hashtags you've created or used frequently to contribute to online dialogue about your cause

What are Your Search Terms?

info@aspirationtech.org

Building Listening Into your Process

Listen Online

- Identify Opportunities
 - ► WHAT?
 - What topics are people talking about along with your issue?
 - What are people saying about your organization? Your people? Your issue?
 - What vocabulary are people using? How does it differ?
 - ►WHO?
 - Who is talking about your issue?
 - Who is connecting with you?

THEN... info@aspirationtech.org

Building Listening Into your Process

- Incorporate into your Messaging
 - Pain, Passion, Fun, Fame
- Track the Impact
- Practice & Improve

BIG THANK YOU to Upwell for sharing their Big Listening Campaign Lifecycle

Benefits to Listening Online

- How is it valuable?
 - Be part of the conversation
 - Save \$\$\$
 - Less guessing

Detective Work

- So if you have identified new stakeholders, you'll want to do more detective work about where they are online, and again look to see:
 - Do they have a Twitter feed?
 - Are they a Facebook user?
 - Do they use blogs or online forums?
- It's also helpful to think about who influences your stakeholders and who they follow online.
 - Where do they get their news and information from?
 - Whose information are they sharing?
 - What #hashtags are they using and responding to?

info@aspirationtech.org

Pre-cautions to Listening Online

- Does not provide Analytics
- Isn't fool proof
- Sift through noise
- Like an Online Garden
 - Unique Online
 Identity can help

Using Closed vs. Open Web Site Tools as a Nonprofit

Friday, December 02, 2011 10:38 AM

Recently, we had a conversation with an organization who was getting pressure to use a closed tool called Jimdo rather than the open-source tool, WordPress for their web site. Jimdo seemed easier and quicker and they wanted to know what we thought about it. Here's a couple points that we brought up with them: Using [...]
